LLMQuant

The AI community building future technology for investment research.

We are LLMQuant, an open-source community focusing on AI, LLM (large language model) and Quantitative Finance. We aim to leverage AI to investment research with feasible collection of techniques and solutions.

Products & Projects

LLMQuant Data (Flagship) - The knowledge harness for AI-native finance. Market data, research, and macro context structured for LLM agents, delivered through one unified API. Ships with data-mcp for native MCP protocol integration. One harness, not six integrations.

- Quant Wiki - Open-source bilingual wiki for quantitative finance.

- Quant Pa
